TDDI41 Lab report

Högskoleingenjörsutbildning i datateknik, 180 hp

Laboration report - October 13, 2016
System Administration
TDDI41, Linköpings universitet

Assistant:
Jon Dybeck
IDA

DNS

1-2

a) A name server which answers queries about names in a zone.

A domain is a subtree of the namespace, and a zone is a part of the namespace of which a NS is authoritative. $\text{Zone} \subset \text{Domain}$
